

Parking Policy

Policy:

Key Principles:

1 – Parking passes are available as part of membership to the following membership classes: Full, Week-Day, Intermediate and Student.

2 – Parking at the club is limited in availability. It is available to members for league play but also to both members and the general public for bonspiels, competitions, rentals (summer and winter) and other OCC events. Members are asked to limit their use of parking at the OCC to when they are participating or attending events at the club. Members using parking at the OCC who are not attending an event at the OCC are at risk of being ticketed/towed even if they have a valid parking pass.

3 – Because of the limited parking spaces available at the Club, a valid parking pass cannot guarantee a space at the club. A valid parking pass clearly displayed, when used to attend an event at the Club, will avoid any issues with ticketing/towing.

4 – Parking by a member or non-member in the Fire Lane, Handicap or Staff parking spots, or in a way that blocks access to the parking area or building in general is prohibited at all times and subject to ticketing and or towing.

Procedures:

1 – Parking passes for eligible members are available from the Office. The following information will be required: Member Name, make, model, license # and colour.

2 – When a person's membership terminates, parking passes will no longer be valid and should be returned to the club office.

3 – Parking passes need to be clearly displayed on the front windshield of the vehicle. If a vehicle is parked at the club without a valid and displayed parking pass, it is at risk of being ticketed/towed. OCC is not responsible for any tickets/towing fees as a result of a parking pass not clearly displayed on the vehicle.

Date of Board approval: September 14, 2015
